

# **Stirling North Childhood Services Centre Philosophy Statement**

At Stirling North Childhood Services Centre we believe in working closely with our community to lay the foundations for our children's future learning.

Our values are: **Respect, Responsibility, Resilience and Persistence.**

Our aim is to provide an inclusive and culturally sensitive environment where children develop a sense of belonging. The Early Years Learning Framework is embedded throughout our everyday practice.

Our programming is based on individualised planning that is responsive to children's interests, ideas, strengths and culture. Through deep extended play based learning and intentional teaching, we encourage and support children to take safe risks; develop relationships; explore; discover and problem solve within rich and meaningful environments.
